

Jordan Williamson | Front End Software Developer

South Jordan, UT | williamsonjordan05@gmail.com | 801-688-8225 | [LinkedIn](#) | [GitHub](#)

SUMMARY

As someone with two special needs children I understand the importance of accessible web design and the impact it can have on those with different needs. In a world that increasingly depends on technology, I am driven to collaborate on building applications and websites that can help those with disabilities.

SKILLS

FRONT END: **JavaScript, CSS, HTML, UI/UX, Wireframing, Responsive Design, React**

TESTING: **Mocha/Chai, Cypress, Test Driven Development (TDD)**

WORKFLOW: **Project management, Git & GitHub**

WORKING ON: **TypeScript**

TECHNICAL PROJECTS

Rock-Paper-Scissors | Solo | 20 hrs | [Repo](#) |

Rock-Paper-Scissors game vs computer. Hard mode with extra characters!

Technologies Used: HTML, CSS, Javascript

- Utilized a comp to go off of for the layout of the project for school requirements.
- Used Javascript functionality to make the game playable for the users.

Tic-Tac-Toe | Solo | 7 hrs | [Repo](#) |

Tic-Tac-Toe game where you can play against a friend.

Technologies Used: HTML, CSS, Javascript

- Utilized a comp to go off of for the layout of the project for school requirements.
- Used Javascript functionality to make the game playable for the users.

Travel Tracker | Solo | 40 hrs | [Repo](#) |

An application that allows users to book trips and see their past trips, pending trips, and future trips.

Technologies Used: HTML, CSS, Javascript

- Utilized an API to grab user information and display it and also allow the user to update information such as booking a new trip.
